29 Oct 09

FROM: 61 CONS/LGCA
483 N. Aviation Blvd
El Segundo, CA 90245

SUBJECT: Letter of Commendation for RMA Land Construction, Inc. for Contract Number FA2816-04-D-0004, Simplified Acquisition Base Engineering Requirements (SABER) at the Los Angeles Air Force Base, Fort Mc Arthur, Pacific Crest and Pacific Heights I & II.

Mr. Roy Mohammad,

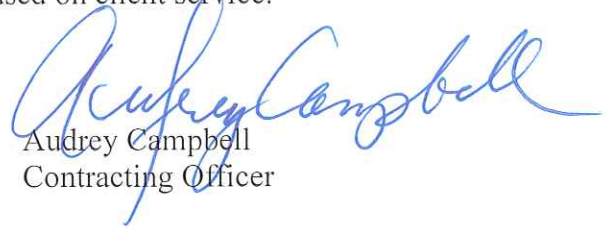

This letter is in reference to the SABER contract that your firm executed as the prime contractor for the past five years at the Los Angeles Air Force Base. During close out of your contract I was impressed that RMA had completed 32 task orders and that several task orders had four or five projects combined within them.

The many projects that RMA completed for Los Angeles Air Force Base have contributed to the overall appearance and functionality as well as many improvements for the Base. RMA's ability to provide full service construction covering a broad scope of work is evident in the task orders completed. I reviewed a long list of task performed by RMA that included: repairs, restoration, and renovations, minor new construction, window replacement, landscaping, concrete, asphalt paving and striping, mechanical and plumbing upgrades, underground utilities, flooring, demolition, asbestos & lead abatement, window replacement, AT/FP upgrades, signage, and electrical.

I'm taking this opportunity to thank RMA for their consistent outstanding performance on this five year contract. From your corporate management to your field personnel, RMA has exceeded the expectations of Los Angeles Air Force Base on every level: safety, quality, professionalism, creativeness and responsiveness. Most notable though was the sincere and utmost concern your firm exhibited for the Los Angeles Air Force Base. In the five years the Base has worked with RMA, your firm has had zero safety incidents and early completion of every task order. Your excellent management team, specifically Program Manager - Don Hobson, Project Manager - Bill Rupert, and Superintendents - Mac Sheikh and Henry Beaston are to be highly commended.

The growth and progress I've seen RMA make over the past five years has been amazing. I am proud to have been able to witness your firm grow from a small 8(a) firm to a competitive full service prime contractor. RMA is truly an outstanding organization with proven competency and

extensive experience in federal contracting. It has been a pleasure working with RMA and collaborating with such a vibrant organization focused on client service.

Audrey Campbell
Contracting Officer
