FOR IMMEDIATE RELEASE: April 29, 2011

RMA Breaks Ground for the Design-Build Marine Corps Reserve Training Center at Naval Weapons Station, Seal Beach, CA

Anaheim, Calif. (Apr. 29) - **RMA Land Construction, Inc., (RMA)** participated in the official groundbreaking ceremony to mark the start of construction at the site for the new single-story, 26,910 SF Marine Corps Reserve Training Center (MCRTC) and 6,332 SF gun shed at the Naval Weapons Station (NWS), Seal Beach, CA. In attendance were Lieutenant Commander Chad Lorenzana, Public Works Office, Captain Terry Auberry, NWS Seal Beach, Lieutenant Colonel Jeffery Morgan, Marine Corps Reserve, and URS Group, Designer of Record.

The new facility will supplement the existing Marine Corps Reserve Center (MCRC) to provide additional training space and joint use of the existing MCRC facilities, as the 5th Battalion, 14th Marines relocate from MCRC Pico Rivera to MCRC Seal Beach. The project is designed to achieve the U.S. Green Building Council's LEED® NC Version 3 Gold Level Certification. The project is scheduled to be completed in April of 2012.

RMA Land Construction, Inc. is a design-build general contractor with 30 years of proven experience on various projects for the Federal government and Department of Defense (DoD) clients. RMA provides design-build management for a multitude of projects in globally diverse locations, including new vertical construction and renovation of administrative buildings, military barracks, hospitals, fitness centers, maintenance facilities and special ops facilities; high and low voltage electrical distribution; heavy and civil/horizontal construction; and maintenance and support services.
