RMA Earns ABC Platinum STEP Award

Anaheim, Calif. (Dec. 30) - **RMA Land Construction, Inc., (RMA)** was recognized for setting a higher standard of safety excellence and for ongoing efforts in the development of quality safety programs throughout 2010. RMA received the Platinum level award – the highest level achievable in the series of Safety Training and Evaluation Process (STEP) awards issued through the Associated Builders and Contractors, Inc. (ABC). This acknowledgment marks RMA's 3rd consecutive year as a Platinum level recipient.

RMA Land Construction, Inc. is a design-build general contractor with 29 years of proven experience on various projects for the Federal government and Department of Defense (DoD) clients. RMA provides design-build management for a multitude of projects in globally diverse locations, including new vertical construction and renovation of administrative buildings, military barracks, hospitals, fitness centers, maintenance facilities and special ops facilities; high and low voltage electrical distribution; heavy and civil/horizontal construction; and maintenance and support services.
