### ***Walsh RMA Joint Venture Wins Tactical Equipment Maintenance Facility Project at Schofield Barracks, Oahu, Hawaii***

Anaheim, Calif. (Mar. 01) - **RMA Land Construction, Inc., (RMA)** was awarded a \$37.8 Million design-bid-build project under the Walsh RMA Joint Venture (Walsh-RMA) for the U.S. Army Corps of Engineers, Honolulu District. This project requires construction of six (6) structures, including a large two-story 60,000 SF vehicle maintenance facility located within Schofield Barracks, Oahu, HI.

The Tactical Equipment Maintenance Facility (TEMF) will feature a 14-bay tactical equipment maintenance shop; 1,512 tactical vehicle parking hardstand; a 100-stall POV parking lot; deployment equipment warehouse; and hazardous material storage. Supporting facilities include underground utilities; HVAC; electrical and telecommunication services; exterior lighting; fire protection and alarm systems; concrete paving and sidewalks; retaining walls; 3,600 LF of fencing and gates; over one mile of storm drainage; retention basin and culverts; and landscaping. The project is scheduled for April 2013 completion. The center is designed to meet Post Architectural and Engineering Guidelines and incorporates the U.S. Green Building Council's LEED® Silver criteria for sustainability.

The Walsh Group, Ltd. is a 112-year old, family owned business in its fourth generation of leadership providing general contracting, construction management and design-build services. The Walsh Group is capable of performing all site survey, engineering and layout, demolition, site utility, yard piping, process equipment piping and installation, excavation, concrete work and carpentry work with its own forces.
