### ***ECC-RMA, LLC Wins Unrestricted South Pacific MATOC and Roof Replacement Seed Project for the U.S. Army Corps of Engineers***

Anaheim, Calif. (June 22) – **ECC-RMA, LLC** was awarded the \$150 million ID/IQ Multiple Award Task Order Contract (MATOC) for Construction Services, Design-Build, and Design-Bid-Build projects for the U.S. Army Corps of Engineers, South Pacific Division. The task orders involve new construction, renovation, repairs, preventative maintenance, environmental abatement, erosion control, earthwork, and operations.

Additionally, ECC-RMA, LLC was awarded the seed project which consists of the Roof Replacement for the VA San Diego Healthcare System, San Diego, CA. Awarded by the USACE, Los Angeles District, the \$5.1 million project consists of roof replacement at three buildings at the VA San Diego Medical Center in La Jolla with options to install a Photovoltaic (PV) System and Window Washing System.

RMA Land Construction, Inc. is a design-build general contractor with 29 years of proven experience on various projects for the Federal government and Department of Defense (DoD) clients. RMA provides design-build management for a multitude of projects in globally diverse locations, including new vertical construction and renovation of administrative buildings, military barracks, hospitals, fitness centers, maintenance facilities and special ops facilities; high and low voltage electrical distribution; heavy and civil/horizontal construction; and maintenance and support services. Visit [rmland.com](http://rmland.com) for more information.

Established in 1985, ECC is an employee-owned company that provides a complete range of services to support its clients' missions, including engineering, design-build, construction, environmental remediation, and munitions response capabilities. ECC serves several U.S. government agencies, including the Army, Air Force, Navy, Department of State, and Department of Energy.
